

TRC Announces Philadelphia Expansion

New Office to Provide Full Suite of Services to Philadelphia Metro Region

PHILADELPHIA, PA – April 27, 2009 – TRC Companies, Inc. today announced it is expanding its presence in the Philadelphia metropolitan region with the opening of a new Center City office. The strategic location of this additional office allows TRC to augment its established infrastructure services in the region with environmental, energy and real estate services.

"We have a strong presence in Philadelphia, having worked on landmark projects such as the One and Two Liberty Place Office Towers, the King of Prussia Mall, and PennDOT's I-476 "Blue Route" project," said Chris Vincze, TRC's Chairman and Chief Executive Officer. "TRC is committed to providing the kind of multi-disciplinary consulting, engineering and construction management expertise that complex regional projects require, as we do in New York and other major metropolitan areas."

The U.S. Environmental Protection Agency (EPA) has named TRC a 2008 ENERGY STAR® Partner of the Year for outstanding energy management and reductions in greenhouse gas emissions. The Company is the leading environmental liability transfer firm in the industry, with its unique Exit Strategy® and RE Power® programs facilitating complex transactions that relieve environmental liabilities, reduce corporate costs and enable companies to focus on their core businesses.

TRC's land development, engineering, construction inspection and geotechnical capabilities have helped build the Philadelphia skyline and key waterfront projects. "We are thrilled to open our newest office in Center City, Philadelphia at Centre Square in the prominent 'clothespin building,'" said Mitchell Bormack, TRC Vice-President. "This multi-disciplinary office will supplement our other Philadelphia-area offices in Mt. Laurel and Trenton, NJ and Allentown and Harrisburg, PA, allowing us to better serve our existing and new clients. We look forward to participating in the redevelopment of the Philadelphia metro region's aging infrastructure, downtowns and waterfronts."

TRC's new office is located at Centre Square, 12th Floor, East Tower, 1500 Market Street, Philadelphia, PA 19102. For more information, contact Mitchell Bormack at 215.796.1010. To learn more about TRC's full range of services, please visit our website: www.trcsolutions.com.

TRC has provided engineering, environmental, and construction services that have helped build the skyline we all know. It is the kind of work that is often behind the scenes but makes complex projects successful.

Our services may sometimes be unseen, but we're not. Come visit us in our new office in Centre Square.
