About TRC

A pioneer in groundbreaking scientific and engineering developments since the 1960s, TRC is a national engineering, consulting and construction management firm providing integrated services to the power, oil and gas, environmental and infrastructure markets. We serve a broad range of clients in government and industry, implementing complex projects from initial concept to operations. TRC delivers results that enable clients to achieve success in a complex and changing world.

TRC includes over 4,000 technical professionals and support personnel in more than 120 offices throughout the U.S. Our clients depend on TRC’s multidisciplinary teams to design solutions to their toughest business challenges.

TRC’s Building Sciences/Industrial Hygiene practice offers services from offices strategically located throughout the country to quickly and conveniently serve our clients.

Why TRC?

• Our specialty is evaluating environmental risks and how they can impact your bottom line.
• When you hire TRC, you hire a vast reservoir of knowledge and expertise.
• We take our technical reports a step further and include documentation that is easy to understand.
